

AJAX™ INTEGRAL ENGINE-COMPRESSOR DPC-2803

600-634 bhp, 440 rpm

Robust, reliable Ajax engines have been manufactured in the United States longer than any other OEM brand engines, with continuous innovations and technologies adding compliance, strength and simplicity to the original design. The DPC-2803 integral engine compressor rated at 600-634 bhp and features a slow-speed, two-cycle engine design that results in less wear and fewer moving parts. It offers greater reliability and efficiency than high-speed separable units. As a result, operating costs are substantially lower over the life of your equipment. Over 460 DPC-2803s have been built. The DPC-2803 is the economic choice for a variety of applications, including gas gathering, injection, processing, transmission, and fuel gas boosting.
