

## LOW EMISSIONS "LE" CONVERSION KIT

AJAX™ 13¼" & 15" TWO-CYCLE INTEGRAL ENGINE-COMPRESSORS Subhead

### Overview

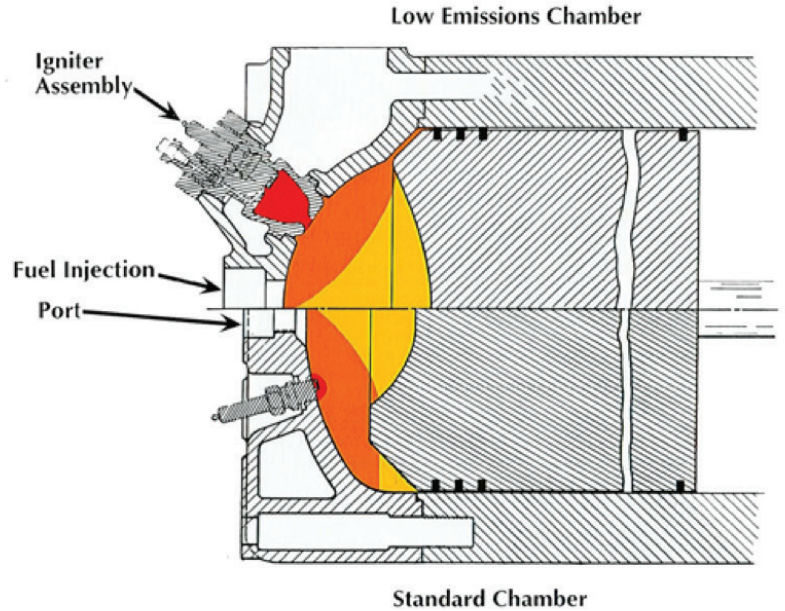

Ajax LE technology is based on combustion modification in order to achieve NOx emission control.

### Features

The main component of the system is the igniter assembly that creates a high energy ignition source, igniting a leaner mixture of fuel, resulting in lower NOx formation and cleaner exhaust.

### Benefits

- › Lower NOx
- › Low maintenance
- › Reduced fuel consumption
- › Enhanced fuel tolerance
- › Field installations of one day per power cylinder
- › Available for all large-bore 13.25" and 15" Ajax engines
