

KVS POWER PISTONS

INGERSOLL RAND RECIPROCATING COMPRESSION

Overview

Cooper may not be the O.E.M. of Ingersoll Rand (IR) slow-speed integral engine-compressors, but we are proud to help our customers keep this legendary engine running in peak condition. Cooper delivers a full line of O.E.M.-quality parts, service, repairs, and technical support to customers who want to keep their IR integral gas engine-compressors running in peak condition. We provide O.E.M. quality and modernized power cylinders, liners, pistons, heads, and more for your IR slow-speed integrals.

The IR KVS engine has long been a staple in the oil and gas industry. Cooper is now offering NEW power pistons for the KVS engine. Both types of the KVS piston will be stocked in Houston, TX.

Z1685

- › Replaces part number 1W43323
- › 6.5:1 compression
- › Complete with piston pin bushings and oil deflector
- › For use in CT and DT series

Z1687

- › Replaces part number 1W43323A
- › 7.5:1 compression
- › Complete with piston pin bushings and oil deflector
- › For use in ET, FT, and GT series

Also Available (New)

Z1455 KVS Power Cylinder Liner

- › No counter-bore

Z6251 KVS Power Cylinder Head (3 Valve)

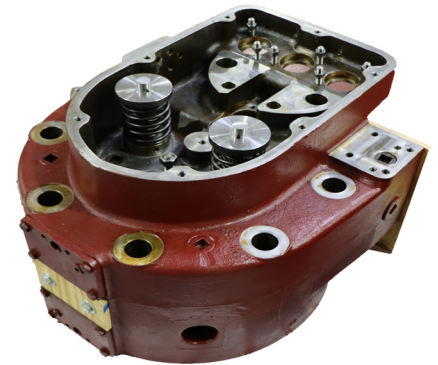

- › Fully assembled

Z6492G KVS Power Cylinder Head (2 Valve)

- › Fully assembled
